**URGENT SAFETY RECALL**

This is an important Safety Recall.  
The remedy will be performed at  
**NO CHARGE** to you.

**Certain 2001 through 2004 Model Year Toyota Tacoma Vehicles  
Excessive Corrosion of the Spare Tire Carrier Lift Plate  
SAFETY RECALL FOLLOW-UP NOTICE (Remedy Available)**

[VIN]

Dear Toyota Customer:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in certain 2001 through 2004 Model Year Tacoma vehicles. Our records indicate that you own a vehicle that has not yet had this condition corrected.

**What is the condition?**

This condition affects certain 2001 through 2004 model year Tacoma vehicles originally sold in or currently registered in cold climate areas with high road salt use (Cold Climate States). The spare tire is stored underneath the rear bed of the vehicle and is suspended from the spare tire carrier on a metal lift plate. Under certain environmental and usage conditions, the lift plate could corrode. In limited cases, corrosion of the plate over time could cause it to break, which could result in detachment of the spare tire from the vehicle. Detachment of the spare tire could increase the risk of a vehicle crash.

**What will Toyota do?**

***The remedy for your vehicle is now available.*** Any authorized Toyota dealer will visually inspect the condition of the spare tire carrier lift plate. Based on the results of the inspection, if significant corrosion is found, the spare tire carrier will be replaced at **no charge** to you.

As an additional measure of confidence, Toyota will also perform a functional test of the spare tire carrier to ensure proper operation. The functional test will also be performed at **no charge** to you.

**What should you do?**

***This is an important Safety Recall***

**Please contact any authorized Toyota dealer and make an appointment to have the spare tire carrier lift plate inspected and, if necessary, replaced.** The inspection of the spare tire carrier and its lift plate will take approximately 10 minutes. If the dealer determines the spare tire carrier requires replacement, the repair will take approximately 40 minutes. However, depending upon the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time.

This Safety Recall involves customers whose vehicles were originally sold in and/or currently registered in the following 20 Cold Climate States and the District of Columbia which have high road salt usage.

**CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI & WV**

You do not need an owner letter to have this recall completed; however, to assist the dealer in confirming vehicle eligibility, we request that you present this notice at the time of your service appointment.

If you would like to update your vehicle ownership or contact information, you may do so by registering at [www.toyota.com/ownersupdate](http://www.toyota.com/ownersupdate). You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

If you have moved to another state, but would like to have your vehicle inspected, please contact your local Toyota dealer for assistance.

**What if you have other questions?**

- Your local Toyota dealer will be more than happy to answer any of your questions and set up an appointment to perform the repair.
- You can find additional information and locate a Toyota dealer in your area by going online and visiting [www.toyota.com/recall](http://www.toyota.com/recall).
- Additional information is also available by contacting the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 5:00 a.m. to 6:00 p.m., or Saturday 7:00 a.m. through 4:00 p.m. Pacific Time.
