Petition 00209
ES12-001104

Dear Mr. Ownbey:

This is to notify you that the National Highway Traffic Safety Administration (NHTSA) has made a determination to deny the Morgan Olson, LLC's February 10, 2012, petition for an exemption based on inconsequentiality from the recall requirements of 49 U.S.C. Chapter 301. NHTSA has determined that Morgan Olson's noncompliance with Federal Motor Vehicle Safety Standard No. 206, *Door Locks and Door Retention Components*, is not inconsequential to motor vehicle safety.

With this petition denied (copy enclosed), you must notify vehicle owners (49 U.S.C. 30118, 30119) and provide a free remedy (49 U.S.C. 30120.) Pursuant to 49 CFR 573.6(c)(8)(iii), please submit an amended Noncompliance Information Report to my office no later than five (5) Federal Government working days from the date the petition denial is published in the Federal Register. The report should include the following information: a recall population, a problem description, a remedy, and a recall schedule. If a portion of the information is unknown, the report must still be submitted on time. The remaining information must be provided as it becomes available.

If you have any questions regarding your recall obligations, you may contact Jennifer Timian, Chief of the Recall Management Division at (202) 366-0209.

Sincerely,

Nancy L. Lewis
