Ducati Motor Holding S.P.A. has decided that a defect which relates to motor vehicle safety exists in certain model year 2011 Monster 1100 EVO (all versions) and model year 2012 Monster 1100 EVO (all versions) motorcycles. ### **What is wrong?**

During the quality tests of the wheel rims for the above referenced motorcycles Ducati has determined that there is a potential problem with cracks developing in one or more of the spokes of the rear wheel rim. This is a potential safety issue that needs to be addressed preventively by replacing the rear wheel rim with a new rim built to higher specifications. If left unchecked, this cracking could potentially lead to failure of the rear wheel which may render the vehicle unstable. This could result in a crash causing property damage and/or personal injury.

**What will Ducati do?**

To correct this condition, your authorized Ducati dealer will replace the rear wheel rim with an updated version. The Dealer will perform this replacement at no cost to you for parts and labor. We request that you contact your authorized Ducati dealer and schedule an appointment, so that the required service can be performed without delay. To locate your nearest authorized Ducati dealer, please go to [www.ducati.com](http://www.ducati.com) and select the "dealer locator" or you may call toll free from the U.S. 1-800-231-6696. Your dealer can complete the required service in under an hour, if you have an appointment. If your dealer has a number of vehicles awaiting service, additional time may be required.

Federal regulations require that any lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.
