IMPORTANT

- Your vehicle is involved in safety recall 12036.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

If a buildup of snow or ice on the windshield or on the wipers restricts the movement of the wiper arm, the wiper arm nut may loosen and cause that wiper to become inoperative. If this were to occur, driver visibility could be reduced, which could result in a vehicle crash.

What will we do?

Your GM dealer will tighten the wiper arm nuts. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 15 minutes.

If your vehicle is within the New Vehicle Limited Warranty, your dealer may provide you with shuttle service or some other form of courtesy transportation while your vehicle is at the dealership for this repair. Please refer to your Owner Manual and your dealer for details on courtesy transportation.

What should you do?

You should contact your GM dealer to arrange a service appointment as soon as possible.

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
