PERFORMANCE TRAILERS

Recall #12V-210

What we are asking you to do...

Enclosed is a list of trailers shipped to your location per Parker Trailer Sales, Inc. records. Using this list, please confirm that all trailers sent to your location are accounted for. Verification of the model, serial number and model year can be found on the vin tag on trailer.

1. Locate the affected trailers.
2. Locate the kit box for actuator pump installed on the trailer. The kit box can be opened and the serial number can be found on the E/H actuator label.
3. Inspect for the serial number on the unit.
If the serial number falls within the affected range of affected units, continue to Step 4.

If the serial number is outside the affected range, no further action is necessary.

The affected serial numbers are:

K71-650-00 (E/H 1000 psi) serial # DTS11903 to DTS12759
K71-651-00 (E/H 1600 psi) serial # DTS13805 to DTS14751

4. Once determined if you have an affected unit or not contact Parker Trailer Sales, Inc. At 903-572-0029 and we can give you the number to Dexter Axles which will direct you to the nearest service center. The repairs should take 3 hours. The parts and labor will be provided at no charge to you.

SAFETY RECALL NOTICE 110004

(NHTSA RECALL NOTICE 12V-210)

June 11, 2012

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Parker Trailer Sales, Inc. has decided that a defect which relates to motor vehicle safety exists in the Dexter Axle brand hydraulic pump used in the electric/hydraulic actuator that were distributed between 9/11 and 12/19/11.

The reason for this recall...

Dexter Axle Company has determined that the pumps had not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The electric/hydraulic actuator provides braking power to the trailer brakes. Failure of this actuator can result in the loss of braking effort by the trailer. This could lead to a vehicle crash if the enclosed inspection and replacement procedures are not completed.

This recall applies to the following models and serial numbers.

Serial Number	Model	Model Year
C1000101	GNTD9630	2012
C1000141	GNTD9632	2012
C1000190	GNTD9633	2012
C1000826	GNTD10240	2012
C1000838	HP7720	2012
C1001066	GNTD9630	2012
C1001204	GNTD9635	2012
