Serial No: R9X12T

August 6, 2012

VIA USPS CERTIFIED/REGISTERED MAIL

Dear R9X12T Owner:

This notice is sent to you in accordance with the requirements of the U.S. National Traffic and Motor Vehicle Safety Act.

According to our records, you currently own a Vermeer R9X12T Reclaimer. The Model and Serial Number of the R9X12T is shown at the top right of this letter. If you no longer own this unit, please notify the Product Safety Department at:

Toll Free: 800-829-0051, extension 7060

Telephone: 641-621-7060

E-mail: productsafety@vermeer.com

If possible, please provide the name and address of the new owner.

BRAKE SLACK ADJUSTER FAILURE MAY OCCUR

The design of the R9X12T axle did not provide adequate clearance for the automatic brake slack adjuster camshaft. Under certain driving conditions, the brake slack adjuster camshaft may become damaged by axle travel. If the brake slack adjuster camshaft is damaged, the brake slack adjusters will not work properly. A partial or complete loss of trailer braking capability may occur.

DEATH OR SERIOUS INJURY POSSIBLE

If trailer braking capacity is reduced or lost, loss of vehicle control may result while towing on public highway. **Death or serious injury is possible.** Property or equipment damage is also possible.

IMMEDIATE MACHINE MODIFICATIONS REQUIRED

IK00-1718 has been created to provide the necessary parts and instructions to replace the axles. **This kit must be installed as soon as possible.**

Please contact your authorized, independent **Vermeer dealer** immediately to arrange a mutually acceptable time and location to install IK00-1718 **at no cost** to you for labor or materials. The installation of this kit is estimated at 40 hours of labor. If the Vermeer dealer travels to the unit to install the kit, costs may be incurred by the owner. **You must have your machine upgraded for these safety features.**

Contact your local Vermeer Dealer: VERMEER MID ATLANTIC - ANNAPOLIS JC
