Safety Recall Notice 12S33 / NHTSA Recall 12V-318

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the Vehicle Identification Number shown above.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

What is the issue? On your vehicle, it may be possible that the windshield was installed without the use of required urethane adhesive primers. If a windshield was installed without these primers, the bond of the urethane adhesive to the windshield may deteriorate over time and result in wind noise and water leaks. In the event of an accident, insufficient bond strength may increase the risk of personal injury.

What will Ford and your dealer do? Ford Motor Company has authorized your dealer to inspect the windshield and repair as necessary. This service will be performed free of charge (parts and labor).

How long will it take? The time needed for this repair is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time. In addition, the windshield must be removed to determine if replacement is necessary. This may cause a delay depending on new windshield availability.

What should you do? Please call your dealer without delay and request a service date for Recall 12S33. Provide the dealer with the Vehicle Identification Number (VIN) of your vehicle. The VIN is printed near your name at the beginning of this letter.

If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps, and driving instructions.
