

**IMPORTANT SAFETY RECALL NOTICE: 12V-387**

Dear Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Collins Bus Corporation has decided that a defect which relates to motor vehicle safety exists in certain Collins, Mid Bus, or Corbeil buses.

**! I M P O R T A N T !**  
>Your bus is being recalled.  
>You should contact your nearest dealer for inspection and repair.

**Why is a recall being conducted?**

The metal hydraulic service brake line feeding the RH rear service brake assembly may interfere with a body mount assembly. The location of this interference is at the first body mount location directly ahead of the rear axle and on the inboard side of the passenger side frame rail. This interference could cause a rupture in the brake line, leading to the loss of brake fluid and failure of the brakes, potentially leading to an unsafe driving condition.

**What are we doing about the problem?**

We are instructing your Collins distributor to inspect and repair your vehicle. The repair consists of reforming the brake line to clear the body mount isolator and securing the line with the plastic retainer installed on the frame rail. Collins Bus Corporation Customer Service will provide the required parts and instructions. The estimated inspection and repair time is 10 minutes per vehicle. These repairs are offered to you free of charge.

**What should you do?**

Contact your local Collins Bus Corporation dealer and schedule a time to have your bus inspected and repaired. After the repairs are complete, please fill in the appropriate information on the enclosed Owner Response Postcard, sign it, and mail it to Collins Bus Corporation.

**What if you no longer own this bus?**

If you are not the current owner of the vehicle, please indicate this on the Owner Response Postcard and return the card to us.
