Recall Campaign No. 12V-504: Soft Close Automatic Door Function

Dear BMW Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

BMW AG has decided that a defect, which relates to motor vehicle safety, exists in certain Model Year 2005-07 7 Series vehicles equipped with both Comfort Access and Soft Close Automatic options. Our records indicate that you are the owner of a potentially affected vehicle.

We sincerely apologize for any inconvenience this may cause you.

DESCRIPTION OF PROBLEM

This Recall involves the "Soft Close" door function of your vehicle. Due to errors in the vehicle software that affect the Soft Close function, the door may not latch when attempting to close it. This condition would be noticeable. If you then held the door closed in an attempt for it to latch, the door could appear to close and latch even though it did not.

When driving off, an irregular road surface, inadvertent interior contact with the door, or other such external condition could lead to an unexpected opening of the door. This may result in occupant ejection, or increase the risk of injury in the event of a crash.

DESCRIPTION OF REPAIR

The vehicle software will be updated.

The actual repair will require approximately four hours; however, additional time may be required depending on the BMW center's schedule. This work will be performed free of charge by your authorized BMW center.

PRECAUTIONS FOR YOUR SAFETY
