**Re: 12V-368
Withdrawal of Petition for Inconsequential Non-Compliance
2012 Rolls-Royce Ghost
FMVSS 110 – Tire Information Placard**

Dear Ms. Lewis:

With this letter, Roll-Royce Motor Cars NA, LLC (“RRNA”) is withdrawing its Part 556 Petition for Inconsequential Non-Compliance. RRNA filed its petition on August 17, 2012 after submitting its Part 573 Report on July 25, 2012 (amended July 30, 2012). The issue involved a non-compliance with the FMVSS 110 tire information placard affixed to potentially affected vehicles. Specifically, the tire information placard contained an incorrect tire size and pressure for the vehicle’s front tires.

At this time, all of the potentially affected vehicles have been equipped with a correct tire information placard. It is also our understanding that, at this time, the petition has not been denied nor granted by NHTSA. Therefore, the petition is no longer necessary. If you have any further questions, please contact Mr. Martin Rapaport of my staff at (201) 571-5028.

Sincerely,

Sam Campbell
Department Head
Safety Engineering and Intelligent Transportation Systems
