1/28/2014	4 <sup>th</sup> Q 2013	892	778	114	724
	1 <sup>st</sup> Q 2014				

All customers have been contacted, both in writing and on the phone. Returned Goods Authorizations were submitted to customers with remaining inventory of the recalled part number. Our customers were asked if they had any records of who received the product sold and all responses were that there were no records.

The 114 hub units that have not been located were likely used in 4x4 Jeep Liberty vehicles, which is the correct application for this hub unit, and therefore will not be returned.

Sincerely,

W. Norman Moore
