Notes

¹"Procedures Completed" indicates the number of vehicles on which report action have been received from dealers and processed by Jaguar Land Rover as of the end of the reporting period. Those in the "Inspected" category were found not to require the recall service. Those in the "Repaired" category did have the recall service performed.

²"Unreachable Vehicles" indicates the number of vehicle owners that could not be reached. "Undelivered" represents the number of first-class letters to owners of recalled vehicles, as shown on the company records, returned by the United States Post Office for reasons such as addressee unknown, no such street number, or no such business in the state. "Exported" represents the number of recalled vehicles reported to have moved out of the United States, its protectorates, or territories. "Stolen" or "Scrapped" represents the number of recalled vehicles reported to be either stolen or scrapped such that the safety recall service cannot be performed or is inappropriate. Those in the "Other" category are vehicles either "modified" or where the owner "refused" the recall service.
