

### Autocar Install Tag Axle Inspection

Date: 05-02-2012  
Bulletin Name: WM-TSB-032  
Units Affected: See Page 5

#### Purpose:

McNeilus Truck and Manufacturing requires the air lines to be hooked up correctly to the lift axle and spindle lock and the brake.

#### Notice:

- **Most affected units will be inspected and repaired if required by McNeilus service technicians at the customer's facility. A small number of units will be inspected and repaired using the customer's own technicians. See details at the end of this bulletin for the claim procedure.**

- This bulletin should be read and understood in its entirety before performing this update procedure.

- All procedures outlined in the Technical Service Bulletin must be performed by skilled service personnel. Refer to the product service manual for description of maintenance procedures.

- **This bulletin is confidential and limited to Waste Management customers.**

### SAFETY NOTICE

Before entering Packer body or performing maintenance to the Packer read and follow OSHA Regulations concerning entry and working in "CONFINED SPACE" OSHA 1910.146 and "LOCKOUT/TAGOUT" OSHA 1910.147.

Follow OSHA Regulations while performing any work to the Packer.

Follow all safety instructions in your McNeilus Packer Manual.

Shut off truck engine, lock cab doors and keep keys in your pocket before entering body, or performing any work to the Packer.

Place magnetic "DANGER" signs on both cab doors.

Failure to do so can result in serious personal injury or death.

If you have any questions regarding this notice or require further assistance, call McNeilus at: (507)374-6321.

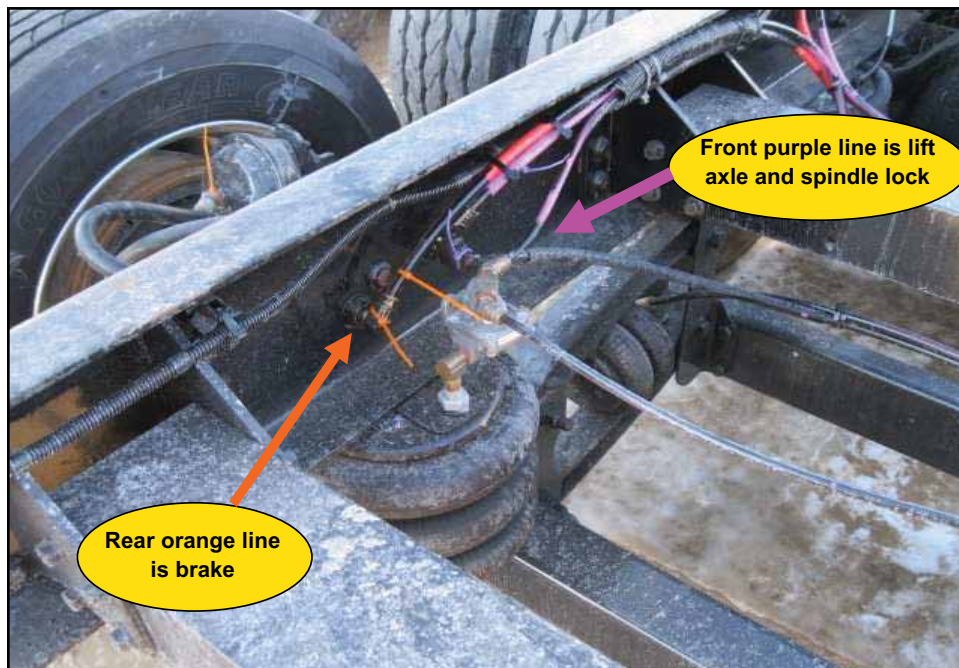

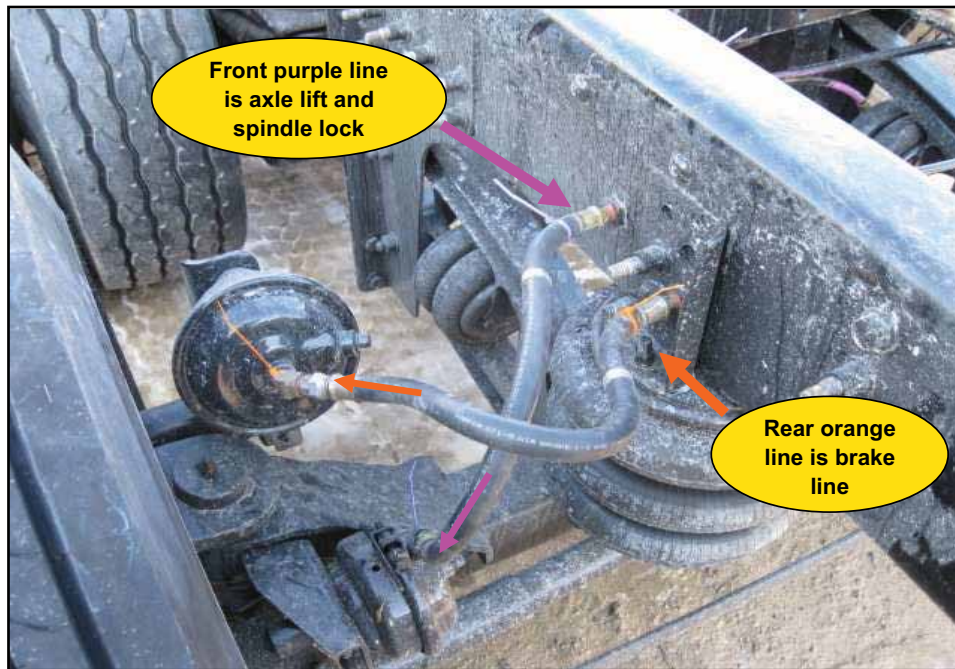

**Procedure:**

1. Place unit on a flat surface, block truck tires, and observe all conditions of the Safety Notice concerning Lockout/Tagout posted in the Notice section of this bulletin.
2. Inspect the Autocar Tag Axle. Determine if the lines are plumbed according to the images below.
3. If the lines are not set up according to the images, follow the images below to correctly plumb the lines for the tag axle.

**Left Side of the Autocar Tag Axle**

The rear orange air line is the brake line only.

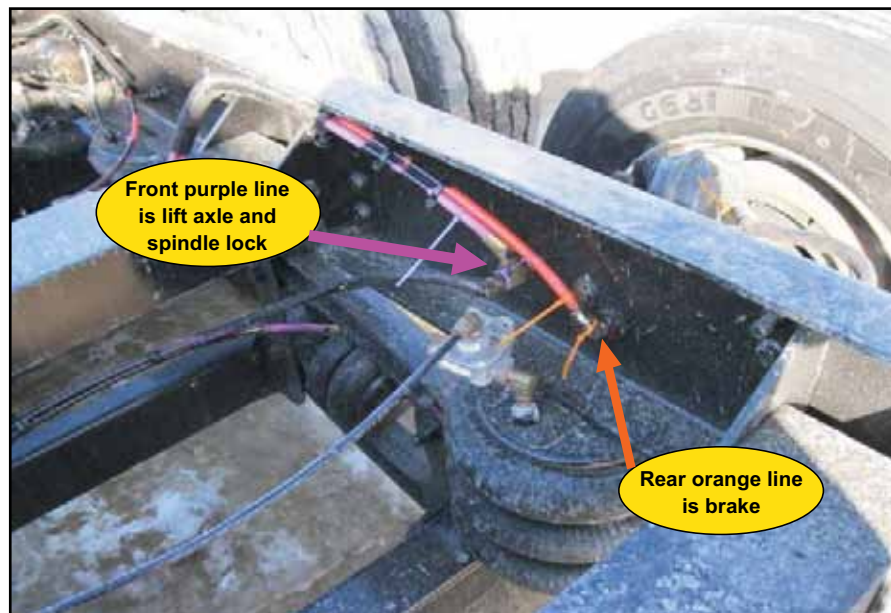

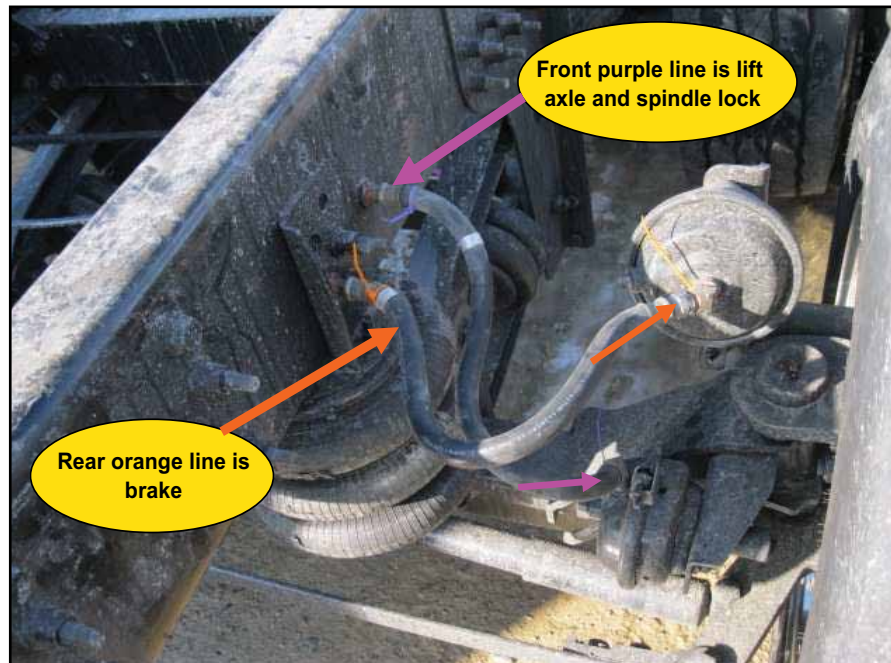

The front purple air line is the spindle lock and lift bag air.

## Right Side of the Autocar Tag Axle

The rear orange air line is the brake line only.

The front purple air line is the spindle lock and lift bag air.

4. Remove the Lockout/Tagout conditions and return truck to service.

Contact McNeilus®:

- Reimbursement Cost - A half hour (.5) of labor will be reimbursed. Parts and parts shipping will be provided at no cost.
- Labor Reimbursement - Claims are to be submitted through the warranty claim system. Claims must be received within 30 days of the repair. Claim must include the McNeilus serial number, the customer asset number, and the number of this bulletin.

Deadline:

If required, this service update should be performed at the earliest opportunity. The following terms must be met to qualify for reimbursement cost.

- Parts must be ordered before: November 02, 2012

**Continuous Improvement:**

The change included in this bulletin is part of the McNeilus® Continuous Improvement Process.

**(888) 686-7278**

**One Number. One Call.  
One Solution.**

*McNeilus® Company's quality policy is Providing Customer Satisfaction through Innovative Products, Dedicated Service, and a constant focus on Continuous Improvement.*
