**Certain 2009 Model Year Camry Vehicles
Stop Lamp Switch Replacement
SAFETY RECALL FOLLOW-UP NOTICE**

[VIN]

Dear Toyota Customer:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in certain 2009 Model Year Camry vehicles. Our records indicate that you own a vehicle that has not yet had this condition corrected.

What is the condition?

Due to a production process change, on one of three assembly lines, a part in your vehicle called the stop lamp switch may not work properly. This could cause warning lamps on the dash to come ON. Your vehicle may not start or the shift lever may not shift from "Park". In some cases the rear stop lamps may not come on; this could increase the risk of a crash.

What will Toyota do?

Any authorized Toyota dealer will replace the stop lamp switch at **NO CHARGE** to you.

What should you do?

This is an important Safety Recall

Please contact any authorized Toyota dealer and make an appointment to have the stop lamp switch replaced as soon as possible.

The replacement of the stop lamp switch will take approximately 30 minutes. However, depending upon the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time.

You do not need an owner letter to have this recall completed; however, to assist the dealer in confirming vehicle eligibility, we request that you present this notice at the time of your service appointment.

If you would like to update your vehicle ownership or contact information, you may do so by registering at www.toyota.com/ownersupdate. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

What if you have other questions?

- Your local Toyota dealer will be more than happy to answer any of your questions and set up an appointment to perform the repair.
- You can find additional information and locate a Toyota dealer in your area by going online and visiting www.toyota.com/recall.
