REMINDER NOTICE

Subject: Haldex Quick Release Valves

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler Trucks North America LLC (DTNA), on behalf of its Freightliner Trucks Division, has decided that a defect which relates to motor vehicle safety exists on specific Freightliner 108SD, Business Class M2, Cascadia, Columbia, and Coronado vehicles manufactured February 3, 2012, through March 1, 2012, with certain Haldex quick release valves.

On certain quick release valves (QRVs), the cover which retains the valve spring and diaphragm may not be adequately spin welded to the valve body. This may allow the cover to become loose or separate from the valve body, supplying less air pressure to the front brakes during brake application. The rear brakes will continue to function. Separation of the valve cover from the body of the valve may increase stopping distance, resulting in an increased risk of a crash.

QRVs will be inspected and those that fall within the suspect manufacturing period will be replaced.

This is a follow up to a previous communication. Our records indicate that your vehicle has not yet had this Recall performed. Please make arrangement to have this repair done as soon as possible. If it has been completed, please disregard this letter.

Please contact an authorized Daimler Trucks North America dealer to arrange to have the recall performed. To locate an authorized dealer, search online at www.Daimler-TrucksNorthAmerica.com. The Recall will take approximately half an hour to an hour, depending on the work needed, and will be performed at no charge to you.

You may be liable for any progressive damage that results from your failure to complete the Recall within a reasonable time after receiving notification.

If you do not own the vehicle that corresponds to the identification number(s) which appears on the Recall Notification, please return the notification to the Warranty Campaigns Department with any information you can furnish that will assist us in locating the present owner. If you have leased this vehicle, Federal law requires that you forward this notice to the lessee within 10 days. If you are a subsequent stage manufacturer, Federal law requires that you forward this notice to your distributors and retail outlets within five working days.

If you have questions about this Recall, please contact the Warranty Campaigns Department at (800) 547-0712, 7:00 a.m. to 4:00 p.m. Pacific Time Monday through Friday, e-mail address DTNA.Warranty.Campaigns@Daimler.com, or the Customer Assistance Center at (800) FTL-HELP after normal business hours. If you are not able to have the defect remedied without charge and within a reasonable time, you may wish to submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; or call the Vehicle Safety Hotline at (888) 327-4236 (TTY: 800-424-9153); or to <http://www.safercar.gov>.

We regret any inconvenience this action may cause but feel certain you understand our interest in motor vehicle safety.
