Recall Number and Description: **12S31 - Occupant Classification Sensor Module Replacement**

What is the Issue? On your vehicle, it may be possible that incorrect software was installed on the Occupant Classification Sensor Module which could result in an inaccurate classification of the front passenger. In the event of a crash, misclassification may cause the passenger side airbag to not deploy when it should, or to deploy when it should not, increasing the risk of injury to the front passenger.

What Are We Asking You To Do? Please contact your dealer to schedule an appointment to have this important service procedure completed. If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps and driving instructions.

The vehicle owner is responsible for having this service action performed. Ford Motor Company reserves the right to deny coverage for any vehicle damage that may result from failure to have this recall performed on a timely basis. Therefore, please have this recall performed as soon as possible.

Service Assistance: If you have additional questions, please contact the Ford Motor Company Customer Relationship Center at 1-866-436-7332 and one of our representatives will be happy to assist you.
