URGENT SAFETY RECALL

CALL YOUR FORD DEALER NOW TO SCHEDULE YOUR FREE REPAIR

Your vehicle's throttle may stick if the throttle is depressed fully or almost fully open. This may result in very high vehicle speeds, making it difficult to stop or slow your vehicle, increasing the risk of crash, serious injury, or death.

WHY DOES MY My Ford NEED A REPAIR?

On your vehicle, there may be inadequate clearance between the engine cover and the speed control (sometimes known as cruise control) cable, which could allow the engine to be stuck at full power when the accelerator pedal is fully or almost-fully depressed. The risk exists regardless of whether or not the speed control is used.

It is extremely important to take steps now to repair your vehicle, to ensure your and your passenger's safety!

HOW DO I SCHEDULE MY FREE REPAIR?

For fast service, please call your Ford Dealer:

Any Ford Dealer

800-555-2222

1234 Someplace

Anywhere, US 12345

Vehicle Information:
