Recall Number 12C26 - Reprogram Restraint Control Module
and Description:

What is the Issue?

On your vehicle, the side air curtain does not perform as described in the vehicle owner guide, as required by FMVSS 208. Your vehicle was designed so that when the front passenger seat is empty, the passenger side air curtain will not deploy during a side impact collision. As a result, an occupant in the right rear seating position will not have coverage from the side air curtain in a crash if the front passenger seat is empty, increasing the risk of injury to the right rear occupant.

What Are We Asking You To Do?

Please contact your dealer to schedule an appointment to have this important service procedure completed. If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps and driving instructions.

The vehicle owner is responsible for having this service action performed. Ford Motor Company reserves the right to deny coverage for any vehicle damage that may result from failure to have this recall performed on a timely basis. Therefore, please have this recall performed as soon as possible.
