Subject: Seal Failure may Cause Inadvertent Lift Movement

Dear Mr. Olson:

This letter serves to acknowledge Terex South Dakota, Inc.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

TEREX/AERIAL DEVICES/2000-2009

Mfr's Report Date: March 14, 2013

NHTSA Campaign Number: 13V-096

Components:

EQUIPMENT

Potential Number of Units Affected: 240

Problem Description:

Terex South Dakota, Inc. (Terex) is recalling certain model year 2000-2009 TC, RM, OM-DHL, and XM Aerial Device utility trucks which have boom controls mounted in a console at the truck bed. A seal within the hydraulic rotary manifold may fail causing the aerial device to move inadvertently.

Consequence:

Unexpected movement of the Aerial Device while in use may lead to personal injury.

Remedy:

Terex will notify owners, and dealers will reconfigure the hydraulic plumbing and add a solenoid, free of charge. The manufacturer will start notifying owners in April. Owners may contact Terex at 1-605-884-3892.

Notes:

Terex's recall campaign number is SN601. Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Terex's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

You are required to provide an estimated date including month, day, and year, when you will send notifications to owners, dealers, and distributors as soon as it becomes available. Please be reminded that it is expected owners will be notified of a safety defect in their vehicles within 60 days of a manufacturer's notification to NHTSA of a safety defect in those vehicles.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Kelly Schuler who may be reached by phone at (202) 366-5227, or by email at kelly.schuler@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer Timian". The signature is fluid and cursive, with a long horizontal stroke at the end.
