Mfr's Report Date: May 15, 2013

NHTSA Campaign Number: 13V-212

POWER TRAIN

Potential Number of Units Affected: 349

Problem Description:

Triumph Motorcycles (Triumph) is recalling certain model year 2012-2013 Speed Triple ABS motorcycles manufactured June 2012, through January 2013. The transmission on some motorcycles may have been built with an incorrect detent spring.

Consequence:

As a result of the incorrect spring, the transmission may inadvertently shift out of gear while the motorcycle is moving, increasing the risk of a crash.

Remedy:

Triumph will notify owners, and dealers will install a revised detent spring, free of charge. The recall is expected to begin in June 2013. Owners may contact Triumph at 1-678-854-2010 for more information.

Notes:

Customers may contact the National Highway Traffic Safety Administration's Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

We have received Triumph's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

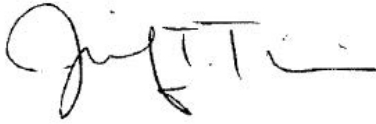

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
