Re: Recall # 13V-098  
Certain Toyota FJ Cruiser Access Door Panel/Seat Belt Anchor  
Part 573, Defect Information Report

Dear Ms. Lewis:

In connection with the above referenced matter, this supplements Toyota's letter of March 15, 2013.

The affected vehicle VIN range and corresponding number of affected vehicles is indicated below:

Identification of Affected Vehicles:

Make/ Car Line	Model Year	Manufac- turer	VIN		Production Period
			VDS	VIS	
Toyota/ FJ Cruiser	2007 - 2013	TMC	*U**F	70001015-80107257 8K001001-DK166714	January 25, 2006 through February 23, 2013

Total Number of Vehicles Potentially Affected:

207,843 units

Additionally, the remedy plan is indicated below:

Description of Corrective Repair Action:

All known owners of the subject vehicles will be notified by first class mail to return their vehicles to a Toyota dealer for installation of a reinforcement bracket to the mounting portion of the seat belt retractor on the access door panel. In addition, if a crack is observed on the door panel, the front seat belt assembly will be replaced with a new one.

Recall Schedule:

Interim notifications to the owners will begin in late April, 2013 and be completed by mid-May, 2013. Remedy notifications to the owners for the repair will begin in late May, 2013 and be completed by late June, 2013.

Copies of the draft owner notification will be submitted as soon as it is available.

Distributor/Dealer Notification Schedule:

Notifications about the interim owners mailings to distributors/dealers will be sent in mid-April, 2013 and notifications about the remedy mailings will be sent in late May.

Copies of dealer communications will be submitted as they are issued.

Should you have any questions about this report, please contact me at (310) 468-8551.

Sincerely,

Vinnie Venugopal  
General Manager  
Toyota Motor Engineering & Manufacturing
