Subject Recall: EQ 13-006

Attn: Cynthia Glass

This is to notify you that Outlaw Conversions has completed the recall campaign to address the 10 locks that were determined to be defective by the supplier Wesco. Of the population of locks there are 4 locks that were sold as a cash sale to a retail customer and the customer information was not recorded at that time. There are 2 locks on a trailer here in Stephenville and I have made many attempts to contact the consumer but the trailer has sold and the new owner is unknown. I have 4 locks here at our facility that will be repaired and put back into stock.

If you need any additional information please let me know

Sincerely

David Johnson

Outlaw Conversions

## OUTLAW CONVERSIONS

### Part 573 Report

Date: September 6, 2013

This report serves as notification by **Outlaw Conversions** to the National Highway Traffic Safety Administration (“NHTSA”) that a motor vehicle safety-related issue exists in certain travel trailer locks supplied by Fastec Industrial Corp., a division of WESCO Distribution, Inc., for installation in the doors of Recreational Vehicles (“RVs”). Additional information concerning the recalled locks can be found in Fastec’s Part 573 Report that was separately filed on July 11, 2013 with an assigned NHTSA Recall #13E039.

Importer/Distributor: Fastec Industrial Corp.  
2219 Eddie Williams Rd  
Johnson City, TN 37601

Manufacturer: Zhongshan Huafeng Locks Co., Ltd.  
South of Yongning Industrial Avenue  
Xiaolan Town, Zhongshan, Guangdong  
People’s Republic of China

In or about June/July 2013, Fastec notified **Outlaw Conversions** that Fastec intended to initiate a recall of the potentially affected locks due to a potential jamming issue with the deadbolt cylinder. If a lock is affected, the key may be able to be removed from the locked door when the key in the deadbolt cylinder is in the horizontal 9 o'clock position, potentially jamming the deadbolt and potentially causing the red lever on the interior side of the lock to become inoperable. In that event, a person inside the travel trailer may not be able to unlock and open the main RV door, but he or she could still exit the trailer from the emergency exit.

#### **IV. The Remedy Program and Its Schedule**

Upon approval of the proposed recall and the recall announcement, **Outlaw Conversions** will work with Fastec to notify consumers of the recall. **Outlaw Conversions** estimates that it will issue consumer notifications in the fourth quarter of 2013. **Outlaw Conversions** will coordinate the recall efforts with Fastec and will refer consumers to Fastec for free replacement of the cylinders in any affected locksets as described more fully in Fastec's Part 573 Report.
