Description of Remedy :

Description of Remedy Program : FCA US will conduct a voluntary safety recall to replace the left outer tie rod on all affected Dodge Ram 4500/5500 Cab Chassis Vehicles. Alternatively, for vehicles that have not already been remedied pursuant to this safety recall, FCA US will offer to eligible owners of affected Dodge Ram 4500/5500 Cab Chassis vehicles to refund the purchase price paid by the first purchaser of the vehicle for purposes other than resale, less a reasonable allowance for depreciation, and not including the cost of modifications made to the vehicle after first retail sale ("Purchase Price"). FCA US will additionally offer a premium of 10% above the Purchase Price to any eligible owner of an unremedied vehicle electing this alternative remedy.

FCA US has a longstanding policy and practice of reimbursing owners who have incurred the cost of repairing a problem that subsequently becomes the subject of a field action. To ensure consistency, FCA US, as part of the owner letter, will request that customers send the original receipt and/or other adequate proof of payment to the company for confirmation of the expense.
