

GSX-R Front Brake Master Cylinder Safety Recall **Visual Difference Between Early and Later** **GSX-R Front Brake Master Cylinders**

Customers are continuing to bring their GSX-R600, GSX-750 and GSX-R1000 motorcycles to Suzuki Dealers for the [Front Brake Master Cylinder Safety Recall](#) repair — below are images to help you quickly identify the difference between the early style front brake master cylinder and the countermeasure part.

As with all Suzuki campaigns, check the unit's campaign status in the Suzuki Connect Vehicle Master Inquiry before you begin making any repairs.

(2007 GSX-R1000 Shown)
Front Brake Master Cylinder
EARLY STYLE

Reservoir hose exits from the side of the master cylinder assembly.

(2007 GSX-R1000 Shown)
Front Brake Master Cylinder
LATER STYLE
