Williston, Fla. 32696

YERED TRAILER SALES  
11 WEST MILL ST.  
MEDFIELD, MA. 02052

Earlier this month we were made aware of a potential defect with the black “flush-lock” with certain key cylinders manufactured by Fastec on trailers built in MY 2006-2012. Attached is the complete list of all trailers that we have identified as sold to your dealership during that time period. We will be sending letters to the customers on your list directing them to the Fastec website to obtain instructions on how to get the lock(s) on their trailer replaced. If any of the trailers listed are shown as Customer “unknown” you must find the applicable VIN and contact the customer directly or if the trailer is still in your inventory go to the Fastec website and follow the recall instructions. This recall is being conducted by Fastec and not Shadow Trailers, however, we will assist you or any member of your staff during this campaign. The link to the Fastec website is [www.fastecindustrial.com/recall](http://www.fastecindustrial.com/recall).

Sincerely,

John Ryan/Shadow Trailers, Inc.
