Subject: SAFETY RECALL NOTICE

Dear Michelin Tire Owner,

This notice is sent to you in accordance with the requirements of the National Highway Traffic and Motor Vehicle Safety Act.

Michelin North America, Inc. has decided that a defect which relates to motor vehicle safety exists in one version of a specific size of the Michelin LTX M/S tire, and it is included in a safety recall.

You are receiving this letter because our records indicate that you may have purchased a Ford E-Series Van or Chassis Cab vehicle fitted with these tires, or purchased them as new replacement tires at retail.

The recalled tires have the potential to experience tread loss and/or rapid air loss. This condition may increase the risk of tire failure and a vehicle crash.

Following is the product description, DOT (Department of Transportation) sequence identifiers and DOT production period of the manufacturing population which contains the recalled tires. The DOT information is molded to the sidewall of each tire: the DOT sequence number and DOT date code that is a 2-digit week and 2-digit year of production, which are given in the DOT production period information. For example, “2312” refers to the 23rd week of the year 2012.
