

***SAFETY RECALL N33 /NHTSA 13V-240
PREMIUM HEADLAMP AIM & INTENSITY***

Dear: (Name)

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Chrysler has decided that some **2013 model year RAM trucks** fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 108 – Lamps, Reflective Devices and Associated Equipment.

The problem is... **The premium headlamps on your truck (VIN: xxxxxxxxxxxxxxxxxxxx) were not properly configured, for high beam aim and intensity, in the Body Control Module (BCM). As a result, your vehicle fails to meet photometric requirements as outlined in Federal Motor Vehicle Safety Standard (FMVSS) No. 108 – Lamps, Reflective Devices and Associated Equipment. A reduced high beam intensity may result in a vehicle crash.**

What your dealer will do... **Chrysler will repair your vehicle free of charge (parts and labor). To do this, your dealer will reconfigure the BCM. The work will take about ½ hour to complete. However, additional time may be necessary depending on service schedules.**

What you must do to ensure your safety... **Simply contact your Chrysler, Jeep, or Dodge dealer right away to schedule a service appointment. Remember to bring this letter with you to your dealer.**

If you need help... **If you have questions or concerns which your dealer is unable to resolve, please contact the Chrysler Group Recall Assistance Center at 1-800-853-1403.**
