NHTSA Recall 13V-297

IMPORTANT SAFETY RECALL NOTICE

Dear Honda Accord Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

What is the reason for this notice?

Honda has decided that a defect which relates to motor vehicle safety and emissions regulations exists in certain 2013 model year Accord vehicles. There is a possibility that the fuel tank may not seal properly at a connection point on the top of the tank which may cause the check engine light to illuminate or a fuel smell may be present, or a fuel leak may occur.

Safety Consequence

In the presence of an ignition source, a fuel leak increases the risk of a fire.

Emission Consequence

Fuel evaporating into the atmosphere will result in the vehicle no longer meeting emissions regulations. Your vehicle may fail a state or local emissions inspection if you do not have this recall repair done.

What should you do?

Call any authorized Honda dealer and make an appointment to have your vehicle repaired **at no cost to you**. The dealer will replace the fuel tank, nut and O-ring gasket. The repair process may be completed in approximately 1 hour and 36 minutes; however, your vehicle will need to be at the dealer for a longer period of time. We recommend that you plan to leave your vehicle for half a day to allow the dealer flexibility in scheduling. This work will be done *free of charge*.

California Owners Only

The DMV will not renew your registration until this emissions recall has been completed. After completing the repair procedure, your dealer will give you a Vehicle Emission Recall - Proof of Correction certificate. Please make sure the dealer completes and gives you the certificate. Keep the certificate for your records as proof that the emissions recall was completed. Submit the certificate to the DMV only if the DMV requests it.

Emission Warranty

In order to ensure your full protection under the emission warranty provisions, it is recommended that you have your vehicle repaired as soon as possible. Failure to do so could be determined as lack of proper maintenance.
