URGENT SAFETY RECALL

This is an important Safety Recall.
The remedy will be performed
at **NO CHARGE** to you.

**2005 through 2011 Model Year Tacoma Access Cab Vehicles
Driver and Front Passenger Seat Belt
IMPORTANT SAFETY RECALL (Interim Notice)**

This notice applies to your vehicle: VIN ABCDEFGH987654321

Dear Toyota Customer:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in certain 2005 through 2011 Model Year Tacoma Access Cab Vehicles.

The purpose of this letter is to explain the details of the recall and to keep you informed of Toyota's implementation plan. We are currently making preparations to implement the Safety Recall remedy. **We will send you a second notification when the remedy is available.**

What is the condition?

The Seat Belt Assemblies for the driver and front passenger are mounted inside the access (rear) doors of the vehicle. On the assemblies, screws holding the Seat Belt Pre-tensioner to the Seat Belt Retractor can become loose over time and through forceful repeated closing of the access door. If these screws loosen completely, the Seat Belt Pre-tensioner and Retractor Spring Cover could detach, increasing the risk of injury to an occupant in the event of a severe crash.

What should you do?

We appreciate your patience while we prepare the remedy parts. In the meantime, if an abnormal rattling noise is heard from the access door, please contact your local authorized Toyota dealer for diagnosis and repair. If the condition is related to this Safety Recall, the repair will be performed at **No Charge** to you.

You will receive a second owner notification letter when the remedy is available.

If you would like to update your vehicle ownership or contact information, please go to www.toyota.com/ownersupdate. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.
