

RECALL NOTICE

Harley-Davidson® Product Recall 0151 Helmets

Harley-Davidson Motor Company, Inc.'s motorcycle helmet supplier, KBC America, has announced a voluntary safety recall to address a regulatory non-compliance of certain motorcycle helmets identified as Hybrid Ultra-Light Classic Cruiser Half Helmets, size Large, X-Large, and 2X-Large. The affected part numbers are 98336-09VM/000L, 98336-09VM/002L and 98336-09VM/022L.

These helmets, manufactured in March 2011, may not comply with the impact attenuation and penetration requirements of Federal Motor Vehicle Safety Standard (FMVSS) 218. By wearing a non-compliant helmet, the user may not be adequately protected in the event of a crash, increasing the risk of personal injury.

To identify an affected helmet, remove the snap-in liner and inspect the GM label on the inside of the helmet shell. Only helmets with the following GM label number are subject to the recall: GM00032205.

Harley-Davidson, through our supplier KBC, is offering a free inspection and, if necessary, replacement of these helmets.

If you believe you have purchased one of the helmets described above, contact your authorized Harley-Davidson Dealer to receive instructions on how to have your helmet inspected and replaced.

[Should you choose to use one of these helmets prior to the inspection and replacement, please be aware of this condition.](#)

To locate your nearest dealer, call Harley-Davidson toll free at: (800) 258-2464, 8 a.m. to 6 p.m. CST, Monday through Friday, or visit www.harley-davidson.com.
