## IMPORTANT SAFETY RECALL NOTICE

**Your vehicle requires an important repair that could affect its operational safety.**

**VISIT <http://VD.mySuzukiAuto.com/XXX>  
IMMEDIATELY FOR FURTHER DETAILS.**

Dear XXX,

Suzuki Motor Corporation has determined that a defect which relates to motor vehicle safety exists in certain Suzuki 2006 Grand Vitara vehicles.

### **Why does my 2006 Grand Vitara need repair?**

Affected vehicles may develop an electrical circuit disconnection within the front passenger sensing system sensor mat that is built into the front passenger seat bottom cushion. In a frontal impact of significant magnitude, the front air bag will deploy - even with a child in the front seat. Air bag deployment with a child in the front passenger seat increases the risk of severe injury or death to the child. Please do not install a child restraint in the front seat and have all small passengers, such as a child who has outgrown child restraints, or a small adult, sit in the rear passenger seats until this repair is complete.

### **What will Suzuki do?**

**The recall repair will be provided at no cost to you.**

Your authorized Suzuki Service Provider will replace the front passenger seat bottom cushion in your vehicle with one that includes an improved sensor mat. This repair will be performed at no cost to you for parts and labor. Repairs can normally be completed in less than two hours if you have made an appointment, however, additional time may be necessary depending on service schedules.

### **How do I schedule my free repair?**

**Our goal is to provide you with the best possible service. Please find the three options below to help you schedule your repair:**
