1	13V-189	N/A	07/17/13	N/A	N/A	196	0	0	0	0	0	DOMETIC 13E-019 Power Awning Recall. Dometic implemented a design change on its power awnings. The design change altered the torque load on the awning motor such that the motor assembly screws absorb the rotational torque. Abnormal torque creates the potential to shear the motor assembly screws inside the awning roller tube, allowing the awning to unfurl unexpectedly. Dometic is handling all notifications.
