VOLUNTARY SAFETY RECALL CAMPAIGN 2013 ALTIMA SEDAN SPARE TIRE REPLACEMENT

CAMPAIGN ID #: PC232

APPLIED VEHICLES: 2013 Altima Sedan (L33)

Check Service COMM to confirm campaign eligibility.

INTRODUCTION

Nissan is conducting a Voluntary Safety Recall Campaign to replace the spare tire on certain specific 2013 Altima vehicles at no charge for parts or labor.

IDENTIFICATION NUMBER

Nissan has assigned identification number PC232 to this campaign. This number must appear on all communications and documentation of any nature dealing with this campaign.

DEALER RESPONSIBILITY

It is the dealer's responsibility to check Service Comm for the campaign status on each vehicle falling within the range of this voluntary safety recall campaign which for any reason enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in a dealer's inventory. **Federal law requires that new vehicles in dealer inventory which are the subject of a safety recall must be corrected prior to sale. Failure to do so can result in civil penalties by the National Highway Traffic Safety Administration.** While federal law applies only to new vehicles, Nissan strongly encourages dealers to correct any used vehicles in their inventory before they are retailed.

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.

SERVICE PROCEDURE

Replace the spare tire with the part listed in the **PARTS INFORMATION** table.

NOTE: Refer to the appropriate manufacturer's directions for the specific tire machine that is being used to install the new spare tire.

NOTE: Federal law requires that all tires removed from service under this recall campaign must be promptly rendered permanently unserviceable and unsuitable for resale for installation on motor vehicles. To render permanently unserviceable and unsuitable for resale for installation on motor vehicles, cut a hole in the tire sidewall before appropriate disposal. Please notify all employees involved with the replacing the recalled spare tire, rendering the recalled spare tire unsuitable for use, or disposition of the recalled spare tire of the applicable requirements and procedures.
