## 1. General Precautions

Please read the rules in this Section carefully; to avoid the risk of death, injury or property damage. Qualified and trained technicians should use The Service Bulletin. Making repairs or service without the adequate training and using inappropriate tools and equipment may cause injury and could damage the bus. Some of the procedures require specific tools designed for specific purposes, so use the tools mentioned in the manual when necessary.

Bus service and repair must be done correctly following the instructions to ensure the safety of the service technician and correct function of the bus. If a part must be replaced, the same part number or an equivalent part should be used. Pay great attention to use a replacement part of good quality.

## 2. Symbol List

Operating Instructions in this bulletin includes the following symbols, warning words and signs:

**CAUTION**

This symbol is used in conditions which may cause damage or injury if necessary measures are not taken.

**WARNING**

This symbol is used in conditions which may cause severe damage or fatal injury if necessary measures are not taken.

**DANGER**

This symbol is used to indicate danger.

**VISUAL INSPECTION**

This symbol is used to inform the user that a visual inspection is necessary.

## 3. Before Start of Work

### 3.1. Mechanical Requested Dress Code

Always wear protective clothing. Do not wear any damaged or loose-fitting clothing and remove jewelry before starting the work. In case of long hair use hairnet. The illustration below shows some of the correct or incorrect clothing that should be worn during work.

Sharp edges should be avoided e.g belts, watches, necklaces to prevent catching the vehicle.

**WARNING**

Dress correctly to avoid injury and damage to the vehicle.

### 3.2. Protect Seats When Mechanics Start Working

1. Seats, trimming, upholstery stuff and carpeting should be protected with appropriate coverings.
