

Redwood RV **Awning Switch Cover Installation Instructions**

Installation kit for the models affected should include the following items:

(1) Complete Awning Switch Cover with Velcro Backs

Velcro Blocks

Step 1

Open the Door Side Basement and look to the Felt Panel where the Awning Switches are Located, this is where you will **Install the Cover**.

Step 2

Push the Cover Firmly against the Felt Panel covering the Switches, this will protect them from Shifting Cargo in Transit.

Step 3

Once Installed the Cover Plate will be Face down and will be accessible by Hand if you would like to use the Switches.
