Recall Number 13S07 - Rear Door Child Safety Lock Test and Replacement
and Description:

What is the Issue?

On your vehicle, it may be possible that the rear door latches contain an improperly formed component. This condition may allow the child safety lock to change from activated to deactivated without input from the operator. If the rear door is unlocked, a deactivated child safety lock would not prevent the door from opening when the interior door handle is activated. This condition could potentially increase the risk of injury to an unrestrained child.

Recall Number 13S04 - Fuel Delivery Module
and Description:

What is the Issue?

On your vehicle it may be possible that over time the fuel delivery module in the fuel tank may develop a crack that could result in a fuel leak. If a leak occurs, you may experience symptoms of a fuel odor or liquid fuel leak. Fuel leakage in the presence of an ignition source may result in a fire.

What Are We Asking You To Do?

Please contact your dealer to schedule an appointment to have these important service procedures completed. If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps and driving instructions.

The vehicle owner is responsible for having these service actions performed. Ford Motor Company reserves the right to deny coverage for any vehicle damage that may result from failure to have these recalls performed on a timely basis. Therefore, please have this recall performed as soon as possible.

Service Assistance: If you have additional questions, please contact the Ford Motor Company Customer Relationship Center at 1-866-436-7332 and one of our representatives will be happy to assist you.
