Esta reparación es **GRATIS**.

Operating your motorcycle without having the recall service performed may increase the risk of a crash.

JOHN SMITH
123 STREET RD
ANYWHERE, OH 12345-1234

URGENT SAFETY RECALL NOTICE

WHY DOES MY [2004] [GSX-R750] NEED REPAIR?

After a long-term service life of the motorcycle without changing the brake fluid, the brake fluid can deteriorate and absorb moisture. The brake piston inside the front brake master cylinder of some motorcycles may not have uniform surface treatment. This combination of conditions can lead to corrosion of the brake piston. If this occurs, the brake piston generates gas that can slowly accumulate above the reservoir port, causing the front brake lever to develop a “spongy” feel. Stopping distances may be extended, **increasing the risk of a crash.**

SUZUKI WILL REPAIR YOUR VEHICLE FREE OF CHARGE.

Your dealer will replace the front master cylinder, as well as flush the hydraulic system of old brake fluid, refill it with fresh brake fluid, and bleed it to remove any air. This will take approximately two hours. Parts are available now, and there will be no charge to you for any recall service-related parts or labor. Contact Suzuki Customer Relations Department at **714-996-7040 Ext. 4127** for assistance.

Suzuki Recall Resolution Team

HOW DO I SCHEDULE MY FREE REPAIR?

Simply call your Suzuki recall resolution specialist at
1.855.215.5335

Monday through Friday,
8 AM to 7 PM EST
HABLAMOS ESPAÑOL.
