URGENT SAFETY RECALL NOTICE

ADVISO DE RETIRO URGENTE DE SEGURIDAD

Schedule Your FREE Repair

Your 2011 Suzuki GSX-R 750 requires an extremely important front brake master cylinder safety recall repair that could affect its operational safety.

Schedule your free repair by calling our hotline:

1.855.215.5335

CALL NOW

Recall Notice Issued To:

Motorcycle Information:

2011 Suzuki GSX-R 750

If you no longer own the motorcycle please help us contact the new owner so he or she can get their motorcycle repaired as soon as possible.

WHY DOES MY 2011 GSX-R 750 NEED REPAIR?

After a long-term service life of the motorcycle without changing the brake fluid, the brake fluid can deteriorate and absorb moisture. The brake piston inside the front brake master cylinder of some motorcycles may not have uniform surface treatment. This combination of conditions can lead to corrosion of the brake piston. If this occurs, the brake piston generates gas that can slowly accumulate above the reservoir port, causing the front brake lever to develop a “spongy” feel. Stopping distances may be extended, **increasing the risk of a crash** .

SUZUKI WILL REPAIR YOUR VEHICLE FREE OF CHARGE.

Your dealer will replace the front master cylinder, as well as flush the hydraulic system of old brake fluid, refill it with fresh brake fluid, and bleed it to remove any air. This will take approximately two hours. Parts are available now, and there will be no charge to you for any recall service-related parts or labor.
