EQUIPMENT:OTHER:LABELS

Potential Number of Units Affected: 3

Problem Description:

Jaguar Land Rover North America, LLC (Jaguar) is recalling certain model year 2013 XF and XJ vehicles manufactured March 26, 2013, through April 10, 2013. In these vehicles, the certification label does not specify the required Gross Vehicle Weight Rating (GVWR), Gross Axle Weight Rating (GAWR) front, Gross Axle Weight Rating (GAWR) rear and the manufacture date and country of manufacture. Thus, the vehicles do not conform to Part 567, "Certification."

Consequence:

If the certification label does not specify all the necessary information or the vehicle weight range could result in the vehicle being overloaded and increase the risk of a crash.

Remedy:

Jaguar will notify owners and dealers will re-acquire and will provide a replacement vehicle or a full refund of the purchase, free of charge. The recall is expected to begin April 24, 2014. Owners may contact Jaguar at 1-855-524-8278. Jaguar's number associated with this recall is J039.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
