14V-124

Subject: Ice May Form in Intake Manifold

Dear Mr. Carpenter:

This letter serves to acknowledge Crane Carrier Company's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

CRANE/COE/2008-2014
CRANE/LDT2/2008-2014
CRANE/LE2/2008-2014
CRANE/LET2/2008-2014

Mfr's Report Date: March 10, 2014

NHTSA Campaign Number: 14V-124

Components:

ENGINE AND ENGINE COOLING:ENGINE

Potential Number of Units Affected: 561

Problem Description:

Crane Carrier Company (Crane) is recalling certain model year 2008-2014 LET2, COE, LDT2, and LE2 refuse vehicles manufactured April 16, 2008, through February 28, 2014, and equipped with certain Cummins Westport Model ISL G engines. Condensation in the intake manifold may freeze during cold weather conditions and interfere with the proper operation of the intake manifold pressure sensor.

Consequence:

The improper operation of the sensor could induce elevated exhaust temperatures or flames from the exhaust pipe, increasing the risk of a vehicle fire or burn injury to a person near the exhaust pipe.

Remedy:

Cummins Inc. and Cummins Wesport Inc. will notify owners, and authorized Cummins service facilities will upload a new ECM calibration, free of charge. The manufacturer has not yet provided a notification schedule. Customers may contact contact Crane at 1-918-832-7305 or Cummins Inc. at 1-800-343-7357.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

We understand that Cummins will be handling the quarterly reporting for this campaign. Please be reminded that as the vehicle manufacturer, Crane is ultimately responsible for conducting an adequate safety recall campaign of its vehicles. Accordingly, if this safety recall campaign is not successful, the agency may require Crane to conduct a follow-up notification and conduct additional quarterly reporting.

Your contact for this recall will be Kelly Schuler who may be reached by phone at (202) 366-5227, or by email at kelly.schuler@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
Chief, Recall Management Division
