Mfr's Report Date: May 1, 2014

NHTSA Campaign Number: 14V-229

Components:

WHEELS:LUGS/NUTS/BOLTS

Potential Number of Units Affected: 334

Problem Description:

Nissan North America, Inc. (Nissan) is recalling certain model year 2014 Pathfinder and Rogue vehicles and 2014 Infiniti QX60 vehicles. The right side wheels of the affected vehicles may have one lug nut each that was not properly tightened.

Consequence:

If the lug nut becomes loose from not being properly tightened, it may fall off, allowing the other lug nuts to become loose, possibly resulting in a wheel separation, and increasing the risk of a crash.

Remedy:

Nissan will notify owners, and dealers will inspect and tighten any loose lug nuts to the correct specification, free of charge. The recall is expected to begin by the end of June 2014. Owners may contact Nissan customer service at 1-800-647-7261.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
