Mr. Lance Tunick
Vehicle Services Consulting
Koenigsegg Automotive AB
P.O. Box 23078
Santa Fe, NM 87502

NVS-215KS
14V-437

Subject: Tire Pressure Monitoring System/FMVSS 138

Dear Mr. Tunick:

This letter serves to acknowledge Koenigsegg Automotive AB's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:
KOENIGSEGG/AGERA/2013

Mfr's Report Date: July 15, 2014

NHTSA Campaign Number: 14V-437

Components:
TIRES:PRESSURE MONITORING AND REGULATING SYSTEMS

Potential Number of Units Affected: 1

Problem Description:

Koenigsegg Automotive AB (Koenigsegg) is recalling one model year 2013 Agera vehicle manufactured in December 2012, equipped a BF1 Systems Tire Pressure Monitoring System (TPMS). The affected vehicle may experience the TPMS system not illuminating the TPMS malfunction indicator light when the vehicle is restarted. Thus, this vehicle fails to comply to the Federal Motor Vehicle Safety Standard No. 138, "Tire Pressure Monitoring Systems."

Consequence:

If the TPMS doesn't illuminate properly when the vehicle is restarted it could cause the driver not to know there is a problem with the tire, increasing the risk of vehicle crash.

Remedy:

Koenigsegg has notified the owner, and a dealer has installed a new software version, free of charge. The recall began on July 9, 2014. Owners may contact Koenigsegg's US dealer at 1-212-594-6200.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

Please be reminded of the following requirements:

It is our understanding that notification to owners began on July 9, 2014, prior to our review of the owner notification letter. Should it become necessary for MFR to do a renotification, the follow-up notification must be submitted to this office for review and it must comply with the requirements of Part 577.5, "Notification pursuant to a manufacturer's decision" and Part 577.10, "Follow-up notification."

As required in Part 573.6(c)(6), in the case of a defect, please provide a chronology of all principal events that were the basis for the determination that the defect related to motor vehicle safety, including a summary of all warranty claims, field or service reports, and other information, with their dates of receipt. Please provide this information as soon as possible. OR As required in Part 573.6(c)(7), in the case of a noncompliance, please provide the test results and other information used to determine the existence of the noncompliance. Include the date of each test and observation that indicated that a noncompliance might or did exist. Please provide this information as soon as possible.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Kelly Schuler who may be reached by phone at (202) 366-5227, or by email at kelly.schuler@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
