Mfr's Report Date: October 29, 2014

NHTSA Campaign Number: 14V-688

Components:

ELECTRICAL SYSTEM

Potential Number of Units Affected: 18,798

Problem Description:

Navistar, Inc. (Navistar) is recalling certain model year 2010-2015 International Lonestar vehicles manufactured October 12, 2009, to June 16, 2014, and 2009-2015 International ProStar vehicles manufactured December 16, 2008, to June 20, 2014. In the affected vehicles the electrical harness that supplies power to the HVAC system may not be of sufficient size for the electrical load of the circuit. This can result in an increase in resistance and heating at the connectors.

Consequence:

An increase in resistance and heating at the connectors could cause a vehicle fire.

Remedy:

Navistar will notify owners, and dealers will replace the 60 amp relay and battery harness with a 150 amp relay and battery harness, free of charge. The recall is expected to begin December 22, 2014. Owners may contact Navistar customer service at 1-331-332-1590. Navistar's number for this recall is 14516.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.
