Subject: Fuel Filter Shell may Separate and Cause Stall

Dear Ms. McCullough:

This letter serves to acknowledge Capacity of Texas's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

CAPACITY/ISB13/2014

Mfr's Report Date: November 24, 2014

NHTSA Campaign Number: 14V-751

Components:

FUEL SYSTEM, DIESEL

Potential Number of Units Affected: 20

Problem Description:

Capacity of Texas (Capacity) is recalling certain model year 2014 ISB13 trucks manufactured from April 28, 2014, to July 10, 2014. The Cummins ISB or ISL engines in these vehicles may have been equipped with Fleetguard UFF-XT fuel filters, part number FF63009, whose filter shell may separate from the fuel filter nut plate causing the engine to stall without warning.

Consequence:

If the engine stalls unexpectedly there is an increased risk of a crash.

Remedy:

Capacity will notify owners, and dealers will replace the fuel filter with a non-defective one, free of charge. The recall is expected to begin December 9, 2014. Owners may contact Capacity customer service at 1-800-323-0135. Capacity's number for this recall is 14E-051. Owners may contact Cummins customer service at 1-800-223-4583. Cummins' number for this recall is C1545.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Capacity's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

We understand that Cummins will be handling the quarterly reporting for this campaign. Please be reminded that as the vehicle manufacturer, Capacity is ultimately responsible for conducting an adequate safety recall campaign of its vehicles. Accordingly, if this safety recall campaign is not successful, the agency may require Capacity to conduct a follow-up notification and conduct additional quarterly reporting.

Your contact for this recall will be Kelly Schuler who may be reached by phone at (202) 366-5227, or by email at kelly.schuler@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer Timian". The signature is fluid and cursive, with a long horizontal stroke at the end.
