Ms. Nancy Lewis
Associate Administrator for Enforcement
National Highway Traffic Safety Administration
Recall Management Division (NVS-215)
1200 New Jersey Avenue, SE – Room W45-306
Washington, DC 20590

Dear Ms. Lewis:

The following information is submitted pursuant to the requirements of 49 CFR 573.6 as it applies to a determination by General Motors to conduct a safety related recall involving 2014 model year Cadillac CTS vehicles.

573.6(c)(1): Cadillac Brand of General Motors Company.

573.6(c)(2)(3)(4): This information is shown on the attached sheet.

573.6(c)(5): General Motors has decided that a defect which relates to motor vehicle safety exists in 2014 model year Cadillac CTS vehicles. The wiper system in these vehicles may become inoperative after a vehicle jump start with wipers on and restricted (e.g. ice and snow) during jump condition. If the battery loses charge, then it is possible that an unstable voltage in the vehicle can reproduce this condition without an external jump start. With inoperative wipers, the driver would no longer be able to clear rain or snow from the windshield, and depending on weather conditions, visibility could be reduced potentially increasing the risk of a crash.

573.6(c)(6): The issue was presented to the Field Performance Evaluation Review Committee on May 5, 2014, and on May 7, 2014, the Executive Field Action Decision Committee decided to conduct a safety recall. General Motors will be submitting a supplemental chronology within two weeks.

573.6(c)(8): Dealers are to replace the front wiper module.

General Motors will provide the dealer bulletin and owner letter mailing dates when available. Pursuant to 577.11, General Motors does not plan to provide notice about reimbursement to owners because all involved vehicles are covered under the new vehicle warranty.

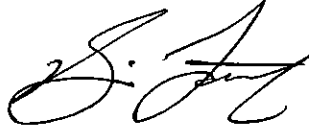

573.6(c)(10): General Motors will provide the dealer bulletin and owner letter under separate cover.

Letter to Ms. Nancy Lewis
N140157 573 Letter
May 14, 2014
