**Subject:** RE: Defect Information Report - Roush Performance Products, Inc. - make, Model, and Model Years of Covered Vehicles

Dear Kelly:

In response to your request, Roush Performance Products (“RPP”) has reviewed its records. I have been advised that the vehicles to be recalled consist of Model Year 2010, 2011, and 2012 Ford E-150 Wagons and Cargo Vans; E-250 Cargo Vans and Extended Cargo Vans; E-350 Wagons, Extended Wagons, Cargo Vans and Extended Vans; and E-450 Cutaway Models.

In addition, during this review, RPP discovered that one of the vehicles that it had included in the recall population in the DIR in fact should not have been included. Therefore, the number of vehicles recalled should be revised to **36**.

If you need any additional information, please let me know.

Ken
