VIN (Vehicle Identification Number) Range

Begin : 4V0FC342XFG005498

End : 4V0FC3426FG006258

 Not sequential VINs

Description of Defect :

Description of the Defect : Vehicles in the recall population have the wrong GVWR printed on the Federal Certification label. The GVWR was overstated by 2,000 lbs. on the Cruiser models and 1,600 lbs. on the Zinger Z-1 models. The incorrect GVWR also resulted in the Cargo Carrying Capacity (CCC) of the vehicle to be overstated on the Tire Placard label and also the CCC label as required by FMVSS 110.

Description of the Safety Risk : An owner could overload the vehicle and exceed the GVWR of the trailer. This could result in a loss of control of the trailer and result in an accident.

Description of the Cause : NR

Identification of Any Warning that can Occur : NR

Supplier Identification :**Component Manufacturer**

Name : NR

Address : NR

NR

Country : NR

Chronology :

This non-compliance was discovered during a routine audit of the federal certification label information conducted by the Quality Department at Crossroads in September of 2014.

Description of Remedy :

Description of Remedy Program : The remedy will be to send correct Federal Certification, Tire Placard, and CCC labels to the owner with instructions to place them over the existing labels.

How Remedy Component Differs from Recalled Component : NR

Identify How/When Recall Condition was Corrected in Production : The GVWR and GAWR information was updated by Crossroads IT department and correct labels were available for production use on September 15, 2014.

Recall Schedule :

Description of Recall Schedule : Crossroads will send owner notification letters pending NHTSA approval.

Planned Dealer Notification Date : OCT 13, 2014 - OCT 17, 2014

Planned Owner Notification Date : OCT 13, 2014 - OCT 17, 2014
