Power Train : NR

Descriptive Information : Model T174BH Single Axle Recreational Trailer

Production Dates : SEP 18, 2013 - AUG 29, 2014

VIN (Vehicle Identification Number) Range

Begin : 4X4TSM720ER404547

End : 4X4TWD72XF7348375

 Not sequential VINs**Description of Defect :**

Description of the Defect : The Gross Vehicle Weight on the certification and Tire Information labels and the calculated Cargo Carrying Capacity are incorrect based on the number of axles on the trailer.

Description of the Safety Risk : If the customer would load the trailer to the GVWR or CCC the tires would fail and it could cause loss of control and crash causing property damage, injury and possibly death.

Description of the Cause : There was a typographical error when the product was entered into our main database indicating two axles instead of one.

Identification of Any Warning that can Occur : Tires could blow out under the load.

Supplier Identification :**Component Manufacturer**

Name : NR

Address : NR

NR

Country : NR

Chronology :

Forest River's Quality Audit was being performed at our PDI facility and it was noted that the labels were incorrect. All units that were in production or ready to ship were corrected.

Description of Remedy :

Description of Remedy Program : We will send the customer or dealer a full set of new labels to apply to the unit by VIN number.

How Remedy Component Differs from Recalled Component : There is not any distinguishing difference between the remedy component or the recall component.

Identify How/When Recall Condition was Corrected in Production : The database was corrected to indicate that the trailer is a single axle and all calculations were corrected to the modification.

Recall Schedule :

Description of Recall Schedule : Forest River is prepared to send out the labels and letters within 15 working days of the receipt of the Recall Notification number.

Planned Dealer Notification Date : OCT 27, 2014 - OCT 27, 2014

Planned Owner Notification Date : OCT 27, 2014 - OCT 27, 2014
