

Part 573 Safety Recall Report**14V-665****Manufacturer Name :** Neely Coble Company**Submission Date :** OCT 20,2014**NHTSA Recall No. :** 14V-665**Manufacturer Recall No. :** DS14-001**Manufacturer Information :**

Manufacturer Name : Neely Coble Company

Address : 403 Beltline Road

Decatur AL 35601

Company phone : 256-350-1630

Population :

Number of potentially involved : 52

Estimated percentage with defect : 100

Vehicle Alterer Information :**Vehicle :** 2012-2014 Isuzu NQR

Descriptive Information : Only units with dual steering modification installed by Neely Coble Company.

Production Dates : JAN 01, 2012 - APR 30, 2014

Description of Defect :

Description of the Defect : We determined that a set screw that holds on the upper LH steering column and steering wheel can back out over time and allow them to separate from the lower column and loss of steering can occur.

Description of the Safety Risk : Potential loss of steering control.

Description of the Cause : NR

Identification of Any Warning that can Occur : NR

Supplier Identification :**Component Manufacturer**

Name : NR

Address : NR

NR

Country : United States

Chronology :

We received a call regarding a customer unit that had the steering wheel and upper LH steering column separate from the lower column while the unit was being driven from the RH steering position. This is the only incident that has occurred, but after reviewing the evidence and re-evaluating the design, we determined that adding a redundant set screw and applying loctite to both would eliminate the possibility of re-occurrence of this failure.

Description of Remedy :

Description of Remedy Program : See attached document

How Remedy Component Differs from Recalled Component : NR

Identify How/When Recall Condition was Corrected in Production : We no longer perform this modification.

Recall Schedule :

Description of Recall Schedule : NR

Planned Dealer Notification Date : OCT 24, 2014 - OCT 31, 2014

Planned Owner Notification Date : OCT 24, 2014 - OCT 31, 2014
