Subject Stop Sale/Recall: 2001-11 Multi-Model Airbag Inflator SALES UPDATE

DATE: June 26, 2014

TO: All Honda Sales Managers and Personnel
FROM: American Honda Parts, Service & Technical Division, Campaign Administration
RE: Stop Sale/Recall: 2001-11 Multi-Model Airbag Inflator **SALES UPDATE**

On Monday, June 23, 2014, American Honda announced three recalls for various 2001-11 Honda models. At this time, affected VINs have not been determined. Due to this, the following models are subject to a **recall** and **stop sale order** in all regions of the United States and US territories:

2001-07 Accord 4 cyl.
2001-05 Accord V6
2001-05 Civic
2002-06 CR-V
2003-11 Element
2002-04 Odyssey
2003-07 Pilot
2006 Ridgeline

Because both VIN information and parts availability are unclear, American Honda is providing the following document to facilitate sales of potentially affected units. Should a customer request the purchase of a potentially affected vehicle, the customer should be advised of the situation, and the following disclosure agreement must be signed. This document must be filled out completely, including customer's signature, for any vehicle within the model/year ranges listed above.

Click [here](#) for a copy of the document.

Once the document is filled out, please scan it and send it to honda_recall@ahm.honda.com. American Honda will collect these documents for use with the customer notification phase of these recall actions.

Once additional information regarding affected VINs is available, American Honda will activate VIN status inquiry and update all dealers via iN message and service bulletin.
